

## MRS. VERNON CASTLE IN PATRIA

America may be embroiled in war at any time. Prepare in the hour of peace. See Mrs. Vernon Castle in "Patria."

"Patria" has been written and screened to bring vividly to the minds of Americans the dangers that threaten the nation. A million citizens are ready to spring to arms in case of need, but they would be martyred in our present unpreparedness. The tragedy of Europe has brought us face to face with the question of national safety. What can prevent a repetition of the horrors now being enacted abroad, or even worse, in our own land? Hungry, covetous eyes are gazing on our treasure stores. Our course is open. America must prepare.

With the theme of Americanism blended interestingly with the issue of preparedness, with the famous Mrs. Vernon Castle as the principal

player, and with the story by Louis Joseph Vance, "Patria" is arousing more interest than any other serial picture ever produced. Mrs. Castle, whom everyone knows, admires and wants to see, acts the role of Patria Channing, a young, athletic, bright-natured girl of wide vision and patriotic spirit. "I am the last of the Channing family; we are known as the 'Fighting Channings.'" is the keynote of the character of the girl.

Patria is the central figure about which crystallizes the plot of this patriotic drama, broad in interest, thrilling in treatment and absorbing from the first picture to the last dissolving view of the heroine. The author has boldly attacked the possibility of a Japanese-Mexican alliance against the United States. The drama gathers speed with the swiftness of the wind. One sensational situation after another constantly commands attention.

## REORGANIZING THE WAR DEPARTMENT

TWO NEW DEPARTMENTS ADDED ON THE NORTH AND SOUTH COAST

(By Associated Press.)

WASHINGTON, D. C., Mar. 26.—Division of the United States into six instead of the existing four military departments was announced today by the war department. The two new departments are the north eastern, comprising the New England states, and the southeastern, comprising the states in the old south. Major General Leonard Wood is transferred from the department of the east to the new southeastern department; Major General J. Franklin Bell from the western department to the eastern department; Major General Hunter Liggett from the Philippines to the western, and Brigadier General Clarence Edwards from the canal zone to the north-eastern department. Major General Barry, of the central department and Major General Pershing of the southern department remain in their commands.

## DEAD AMERICAN FOUND IN FRANCE

(By Associated Press.)

PARIS, Mar. 26.—The body of Sergeant McConnell, the American aviator who was killed last week in an engagement with two German machines, has been found by French cavalry, the Herald says.

With the body was the wreck of McConnell's machine. It was found in the devastated zone of the German retreat. The identification was delayed, it was stated, as McConnell's papers and other articles that would have served to identify him had been removed.

## SPEED ORDINANCE MUST BE ENFORCED

POLICE SHOULD REGULATE THE SPEED DEMONS TO PREVENT ACCIDENTS ON STREETS

With the dense crowd of pedestrians and autos filling Main street around the brokers' offices, it is suggested that the chief of police take action to enforce the speed ordinance and compel through cars and delivery trucks to slow down in the center of town. For a week or more Main street has been congested with parked autos and the sidewalks have overflowed their share of pedestrians into the roadway, requiring the greatest care on the part of drivers in traveling through that quarter.

mate of Belgium, its grand prize of 15,000 francs, destined to recompense "the finest and greatest acts of devotion of whatever kind."

## LOSS OF STRENGTH IN HOT CLIMATES

SANTIAGO, Santo Domingo, Mar. 26.—Encouraging results from the administration of common salt as a remedy against excessive perspiration in the case of marching troops are reported by marine corps officials here.

Sweat contains about six parts of salt in the thousand. A tropical day's march results in the exudation of three to four quarts of sweat, with a salt content of 200 to 250 grains. For experimental purposes about 100 marines were given a teaspoonful of salt (about 75 grains) in the morning before beginning their day's march. After a tropical march of nearly 20 miles the marines thus dosed exhibited much less fatigue than their comrades, and their perspiration was but a fraction of that of the others.

## TWO MEN KILLED IN ACCIDENT AT RUTH

One of the most unfortunate and serious accidents that has occurred in the district for a long time occurred at Ruth about the hour of three o'clock on Friday morning, when Engineer W. H. Douglas and Fireman E. P. Kinred lost their lives, says the White Pine News.

The men were engaged in removing a train of overburden from the pit to the dump. These cars are first pulled from the pit on a tall track, where a switch is then turned and the train proceeds to the dump.

Switchman E. V. Calhoun, the only eye witness, stepped off at the switch and turned it as usual. He saw that the engine was proceeding farther than he thought necessary and cut on the tall track and gave a signal to stop. No attention was paid to the signal and the engine carrying the two unfortunate men dropped off the end of the track down a distance of some 30 feet, when the engine overturned. Scalding steam came pouring forth from the damaged engine and the two men were caught in a trap. They succeeded in crawling out, however, but not until they were so seriously burned that death resulted in the Steptoe hospital a few hours later.

## NETS MILLION AND QUARTER IN NEVADA LAST YEAR

The annual statement of the Western Pacific for 1916 shows that the company derived a net revenue of \$1,262,118.79 from its Nevada business. The amount of revenue collected for business in the state of Nevada was \$3,377,995.89, and the amount expended in operating expenses in the state was \$2,114,977.10.
